SUMMARY

Senior Software Engineer with 15+ years of web architecture experience, tracking a proven evolution from traditional PHP/WordPress environments to modern Jamstack engineering (TypeScript, React, Next.js). Delivering end-to-end web solutions, headless CMS migrations (Contentful, Sanity), and automated CI/CD pipelines while building highly reusable frontend components.

EXPERIENCE

Senior Software Engineer

JUNE 2025 - DECEMBER 2025

***F5**, Remote (Contract)*

- Migrated the f5.com website infrastructure from Adobe Experience Manager (AEM) to Sanity CMS and Next.js, modernizing the content platform and frontend architecture.
- Streamlined content workflows and reusable authoring patterns to increase publishing velocity.
- Managed pull requests, development workflows, and frontend code-quality practices in Azure DevOps.
- Designed and built modular, accessible React components to accelerate product feature launches and ensure design consistency.

Web Developer / Software Engineer

JANUARY 2023 - JUNE 2024

***ON**, San Francisco, CA*

- Led migration of the marketing website to Contentful CMS, Gatsby, and GraphQL, improving content entry workflows and increasing publishing speed by 80%.
- Engineered a robust, automated CI/CD publishing pipeline using GitHub Actions and secure Webhooks.
- Developed interactive, high-performance UI features for an enterprise B2B portal using React, TypeScript, and Web Components.
- Contributed to a no-code Canvas drag-and-drop solution for building chatbot workflows.

Web Developer / Software Engineer

FEBRUARY 2019 - OCTOBER 2022

***Talend**, San Mateo, CA*

- Full lifecycle management of Talend's web properties, utilizing PHP and WordPress.
- Migrated marketing websites to Contentful, Gatsby, GraphQL, React, and Netlify.
- Engineered third-party API integrations and high-volume data-capture tools using JavaScript and React.

Web Developer

OCTOBER 2015 - OCTOBER 2017

***CAKE**, Redwood City, CA*

- Full lifecycle management of all CAKE web properties, utilizing PHP and WordPress.
- Managed full lifecycle of web properties, writing custom PHP plugins, tailored WordPress themes, and backend tracking integrations.

Web Developer

JULY 2013 - SEPTEMBER 2014

***Revel Systems**, San Francisco, CA*

- Independently developed and managed the Revel Systems website, utilizing PHP and WordPress.
- Developed and maintained custom plugins, API integrations, lead-tracking tools, and custom content-management functionality.

Web Developer

AUGUST 2011 - FEBRUARY 2013

***PD Media Lab**, Santa Rosa, CA*

- Created tailored WordPress websites and custom theme architectures for agency clients.
- Built custom plugins to integrate third-party APIs and managed deployment workflows.

Web Developer / Software Engineer

SEPTEMBER 2008 - PRESENT

***Freelance**, San Francisco, CA*

- Developing tailored web solutions for clients using React, TypeScript, Next.js, and Astro.
- Optimizing decoupled frontends to improve page load times and core web vitals.
- Content management with Contentful, Sanity and other platforms.

EDUCATION

Master of Arts (M.A.) - Informatics

SEPTEMBER 2004 - JUNE 2005

***Halmstad University**, Halmstad*

Continued studies in Information Science.

Bachelor of Arts (B.A.) - Informatics

AUGUST 2001 - JUNE 2004

***Halmstad University**, Halmstad*

Studied information science, Media and Communication and Pedagogy.

SKILLS

Frontend Development

HTML, CSS, Sass, JavaScript (ES6+), TypeScript, React, Next.js, Gatsby, Astro, Web Components, Lit, Tailwind CSS, Redux
